World-view Gatherings:
a Venue with a Difference***

the ***Evera Foundation Inc.***
presents in Trentham, 90 km NW of
Melbourne

- Meditative walks in a bushland setting, bordering on the forest.
Instead of build-up places of worship: shadows of trees and significant symbols...
- Space for meetings, conversations, shared cuppa and lunch.
Not only seeking common ground, but also searching for differences that enrich rather than divide...
- Specialized library on comparative religion and world-view.
Not only doctrines, teachings and traditions, but also life experiences and hidden wisdoms...
- Lectures or courses on World-views in Dialogue.
Not only exploring past and present, but also the present and the urgent next step towards realizing the original ideal...
- Central theme: Golden Rule as principle of public life.
Not only ennobling interaction between humans, but also between humans, nature and what is for us most sacred...
